Gauge: **13**                      EN388:2016: **2X43C**  
Coating: **Smooth and Sandy Latex**

## Suggested Applications

- Construction
- Scaffolding
- Engineering
- Glass/Metal Work
- Banksmen
- Infrastructure
- Landscaping
- Waste Management
- Recycling

**WARNING: This product contains natural rubber latex which could cause anaphylactic responses.**

## Limitations of Use:

**Maintenance** - Examine gloves for damages, splits and holes before each use. Always replace damaged gloves. Only properly fitting gloves guarantee protection and grip.  
**Storage** - Store at normal room temperature in a dry, well ventilated area. Avoid direct heat radiation.  
**Disposal** - Used gloves can be contaminated. Dispose with household waste or as instructed by your local authority.  
**Cleaning** - Do not wash. The performance of the product after laundering is unknown. Beat or brush out after each use, depending on level of dirt.  
**Durability** - The period of use depends on the degree or intensity of use in the retrospective application. It is therefore not possible to provide a 'life span' of the gloves.  
**Note** - Due to the nature of this product the user is advised to carry out their own risk assesment before use, depending on application.

## Testing Requirements

These items comply with the requirements of Module B of the PPE Regulation (EU) 2016/425 and the harmonised standard(s) referenced. The CE mark indicates that the product complies with the general requirements, as laid out in the PPE Regulation (EU)2016/425: Personal Protective Equipment Directive, EN ISO 21420:2020 Protective Gloves General Requirements. EN 388:2016 + A1:2018 performance levels shown are taken from the palm area only. These gloves meet the requirements for resistance to water ingress (ISO15383).
